Pleasant Dreams.

It does not lie in the painter's fancy to imagine a prettier picture than that of a young girl, with lips luscious with the promise of love, has parted in the smiles of happy dreamland. The mind of happy maidenhood is a clear and polished mirror, which, when the wits go wandering into the ghostland of dreams, reflects the impressions of waking hours. If those impressions are pleasant and painless and happy, she will smile in her sleep. If the impressions are those of a suffering woman, tortured with the special ailments to which the feminine organism is liable, the picture is spoiled by the lines of suffering and despondency. Maladies of this nature unfit a woman for joyous maidenhood and for capable motherhood. They incapacitate her to bear the burdens of life in any sphere of action. Household, marital and social duties alike are a burden to the woman who is constantly suffering from headaches, backaches, dragging sensations and weakening dreams. Dr. Pierce's Favorite Prescription positively, completely, unfailingly cures troubles of this nature. It imparts health, strength, vigor to the distinctly womanly organs. It fits for career, healthy maidenhood, happy wifehood and capable motherhood.

"I have a little stepdaughter who had St. Vitus's Dance, which your medicine cured," writes Mrs. T. P. Rose of Ford Duwiddie Co., Va. "I spent about twenty dollars for doctor's bills and medicine and it did not do the child one cent's worth of good. We commenced giving Dr. Pierce's Favorite Prescription and Golden Medical Discovery and used three bottles of each, which cost only six dollars. Now the child is running around every where and is just as healthy as ever."

RESULT IN THE STATE.

At the recent election there were four parties appealing to the voters of Nevada for support. Three of those parties declared for free coinage and one is allied with the Republican or gold party. The Republicans, or gold men, made no nomination for Congress, but concentrated all their power to elect their nominees for State officers. In this they were partially successful. Though outnumbered nearly two to one in the State, they will probably elect three candidates for State officers and twelve or fourteen members of the Legislature.

The causes which produced this result have been apparent to every intelligent person in the State for some time. The old adage "that a house which is divided against itself cannot stand" is true in politics. The silver men divided their forces and gave the gold men an opportunity to defeat them. Personal ambition or hatred or both induced the leaders of the various factions of the silver men to nominate three tickets for State officers. The Democrats do not elect a man, except it may be their candidate for State Controller, who has a fighting chance, and the Populists do not elect a candidate on the State ticket.

It is useless to refer to the folly of the three silver factions now. The JOURNAL advocated fusion of the silver forces, regardless of consequences to individuals, but its advice was not heeded and the consequences are the defeat of a part of the Silver ticket in a State in which a large majority of the voters are for free coinage. This lesson should not soon be forgotten by those who desire to see Nevada populous and prosperous.

THE LEGISLATURE.

The returns from the various counties indicate the election of three Republicans, one Democrat and six Silver party State Senators. To the Assembly ten Republicans, one Democrat and nineteen Silver men are elected. There are five Silver holdover Senators, which gives the Silver party 30 of the 45 members of the Legislature on joint ballot. The two Democrats elected, namely, Caldwell of Churchill to the Senate and Dooley of Lincoln county to the Assembly will probably act with the Silver party also. Senator Stewart's election by a triumphant majority is assured.

THE GOVERNORSHIP.

The vote for Governor is unusually close. McMillan is about 200 ahead with about 650 votes to hear from. The votes are in Nye, Lincoln and in outlying precincts in other counties. Nye county is expected to give a majority for Sadler; as are also the votes to be heard from in Lincoln county and it is probable that the majority for Governor will not exceed one hundred.

A Tricky Butcher.
"The greatest business mind I ever ran up against was possessed by the former proprietor of a meat market out in Germantown," said a street car conductor the other day as his car was waiting on Front street. "This butcher had a fine, sneaky voice, which you could hear a block away. Tricky? Yes, that's just what you would call it. I used to watch him sometimes when he was waiting on customers, and it was positively amusing to see the apparent ease with which he would make a two pound steak weigh apparently three or more pounds."

"He would take a couple of pounds of meat and throw it on the scales so that the pointer would show four pounds and then take it off before the scales could register the true weight. There's just four pounds exactly," he would say to the customer in that sneaky voice of his, and then continue with the statement quickly made: "Four times 12 is 58. Call it 60, and unless the customer was watching him closely he would always get even change."

"He was in the meat business only a few years and amassed a competency. Then he left it. What worries me is how he is going to get along now. I understand he is in the real estate business, and I wonder how he works it when he sells a piece of land. The scales won't help him much there."—Philadelphia Record.

The Earth's Shadow.
The earth has a shadow, but very few ever see it, except in eclipses of the moon, or else few recognize it when they see it. Nevertheless, many of us have noticed on fine, cloudless evenings in summer shortly before sunset a rosy or pink arc on the horizon opposite the sun, with a bluish gray segment under it. As the sun sinks the arc rises until it attains the zenith and even passes it. This is the shadow of the earth.

"Under the Dome."

"Under the Dome," the big naval play which comes to the Opera House to-night is one of the most pretentious scenic affairs of the present season. The principal set are a magnificent view of the Capitol at Washington, illuminated, several scenes representing familiar Washington localities, a marvelously realistic reproduction of a ferry boat trip from Jersey City to New York, in which the giant boat containing the characters of the play moves out of the dock and towards the distant lights of the metro polis, every detail of such a trip to be seen by eye or heard by ear being faithfully reproduced, a view of the beautiful coral reef harbor at Apia, before the memorable hurricane, the gathering of the war ships and the firing from their cannons of an Admiral's salute, three storm scenes showing the hurricane as seen from the U. S. Consul's house, a night view of the debris strewn ashore, and the now famous scene depicting the wreck of the Trenton. Secure seats at Miss Dickinson's.

RENO PUBLIC SCHOOLS.

Report and Honor Rolls for October, 1898.

To the Board of School Trustees—GENTLEMEN:—I respectfully submit herewith my report for the second school month:

The attendance continues fair, the mumps being responsible for many absences. The enrollment is slightly larger than for September.

The teachers are gradually getting well in hand the drawing and writing work required. It is no little change for them from having these branches taught by a special teacher, to teaching the same themselves. But the two years and a half of special instruction was most advantageous in the drawing work, getting the pupils well started in this branch and giving the teachers opportunity for fitting themselves for profitable instruction in drawing.

It seems that many of the Normal Schools throughout the West have largely neglected thorough training in drawing, and some of them still neglect it. This is unfair to the young people who are preparing to teach and unfortunate for the schools into which they are to go.
